

Medical.

From The Ladies' Visitor of this City.

MOTHERS,

This is an advertisement in this number of our paper to which we wish to call your special attention. We do so, not because we are paid for doing it—for the proprietor has not so much as requested us to do so—but from the fact that we sincerely believe it deeply interests you and your children to know what is there communicated. We refer to thirty years' experience of a female physician in the shape of Mrs. WINSLOW'S SOOTHING SYRUP for children teaching.

Tens of thousands of children die yearly during the process of teething; teeth and hundreds of thousands barely escape death, to pass a life of suffering, disease in body and enfeebled in mind—all of which results from a disorganization of the system during the process of teething. Mrs. WINSLOW, in her profession, had an opportunity to witness much of this suffering, and has prepared a medicine to meet the case—simple, yet effective and sure. JEWY THE HAMPTON NUMBER.

We know it acts like magic, giving almost instant relief to the little sufferer—having witnessed the most profound results from the use of it in a great number of cases. No discovery in medicine has had so many trials and successes. It will compare with 1 in its benefits to the last hundred years will compare with 1 in its benefits to the race, in our opinion; one of the one female physician, at least, will be numbered by this medicine.

A LADY OF THE FIRST EXQUISITELY WRITES:

"I am to be sure to certify to the efficacy of Mrs. Winslow's Soothing Syrup, and the truth of what is represented to accomplish. Having a little girl who suffers greatly from teething, I used to sit up at night, by her side, watching over my daughter to see if I could purchase a bottle of the Soothing Syrup, in order to test the remedy; and when given to the boy according to directions, he would fall asleep and sleep soundly, and all pain and nervousness disappeared. We have had trouble with him since and the little fellow will pass through with comfort the extraneous process of teething by the sole aid of Mrs. Winslow's Soothing Syrup, who respects the health and life of her child. Yours should possess it."

MRS. H. A. ALGER,
Lowell, Mass.

TIMELY WARNING.

Every mother should be prepared to act in the capacity of both nurse and physician to her children; she can, if she will, discharge these duties much better than any one she can employ. If she does not, she ought to know that there is a medicine prepared by an old nurse—a female physician, which has stood the test of MARY, MARY, and is the most perfect thing on earth for children to drink; it also cures Wind Colic, Dysentery, Diarrhea, and is sure to regulate the bowels. We say to every mother, do not let your own prejudices, or the prejudices of others, stand in the way of the relief that will be sure—shebly sure—to follow the use of Mrs. WINSLOW'S SOOTHING SYRUP.

PERFECT CHARM.

Mrs. WINSLOW'S SOOTHING SYRUP certainly does, as the name implies, "sooth" the little sufferer into a quiet, natural sleep, from which it awakes invigorated and refreshed. And for the cure of diseases incident to the period of teething, such as Dysentery, Diarrhea, Wind Colic, &c., &c., we have never seen its equal.

We have always been, and still are, opposed to the practice of ringing infants. THIS ARTICLE HAS NO DELICIOUS EFFECTS WHATSOEVER, and from our own experience (we speak advisedly), we have every confidence in it, and can heartily recommend it to all mothers. Take our advice—use it—and you will strongly recommend it to others as we have to you.

THIS IS THE SEASON OF THE YEAR when children become almost certain to be afflicted with dysentery and diarrhea. Mrs. WINSLOW'S SOOTHING SYRUP is a never-failing remedy for these diseases, and will give immediate relief from all pain and distress incident to the process of teething. Every mother should provide it for her children.

DRUGGISTS EVERYWHERE NOW KEEP MRS. WINSLOW'S SOOTHING SYRUP for children teething. No medicine in the United States sells like it. It is a standard medicine, and its fame is world-wide. Physicians order and use it, wherever its magical effects have been witnessed.

Millions of bottles of Mrs. WINSLOW'S SOOTHING SYRUP are now used every year in the United States for children teething, with never failing success. Relief is imminent and certain.

Mrs. WINSLOW'S SOOTHING SYRUP is sure to regulate the bowels.

BEWARE OF COUNTERFEITS AND IMITATIONS.

None genuine unless the foil-simile of CURTIS & PERKINS, New-York, is on the outside wrapper.

Sold by Druggists throughout the world.

Principal office, No. 12 CEDAR-ST., NEW-YORK. Price 25 cents per bottle.

A YESTERDAY CURE—For the speedy and certain cure of Intermittent Fever, or Fever and Ague, Remitting Fevers, Chiliasm, Dumb Ague, Periodical Headache, in Liver Diseases, and Bilious Fevers; indeed, for the whole class of diseases originating in bilious derangement, caused by the malady of unknown countries.

A wide-spread acquaintance with the diseases of the American people has long shown us the varying ways of their cure and removal, and the various modes of relief from the chronic disorders which prevail in the vicarious developments of bilious countries. Numerous remedies of one or less power to cure have already been found, but unfortunately they are either of feeble efficiency, or, like quinine and arsenic, are injurious in their effects upon the constitution. Quinine, for instance, is relied on for this class of complaints sometimes produces rashes, &c., and is always, in large quantities, injurious to the constitutional powers. As a general rule, a patient is a patient, and a bilious patient, and therefore, no one can feel safe in using any specific remedies. But this is wrong; for even if they cure, they are too liable to inflict permanent injury upon the patient. As a general rule, however, the best treatment is to remove the cause of the malady. When quinine is taken, it should be prudently used in moderate doses. Among the symptoms of disturbance from its久服, we find a nervousness, headache, loss of appetite, &c., &c. Bilious Diseases, Delirium, and Lengthened Sleep. It also induces Rheumatic and Neuralgic Pains, and other serious afflictions, &c., &c. It should be used with care, and with the greatest caution, as far as possible, for it is not safe to use it in large quantities. If nothing safer could be had, it would of course be better to use them than leave to its course so destructive and dangerous a disease as Intermittent Fever. But we think we offer to the public a safe and certain remedy, which will cure the disease, and remove the nervous disturbance from its久服, we find a nervousness, headache, loss of appetite, &c., &c. Bilious Diseases, Delirium, and Lengthened Sleep. It also induces Rheumatic and Neuralgic Pains, and other serious afflictions, &c., &c. It should be used with care, and with the greatest caution, as far as possible, for it is not safe to use it in large quantities. If nothing safer could be had, it would of course be better to use them than leave to its course so destructive and dangerous a disease as Intermittent Fever.
